

Ab No	Specialty / Division	Presenting Author	Abstract Title
<b>Poster Session I: Basic Science &amp; Transla Poster Session 13:05 – 13:55 Charimen: Dr Judith Mak &amp; Dr Tommy Cheung</b>			
02	Rheumatology	Wu Haijing	Lupus monocyte-derived dendritic cells treated with 1 $\alpha$ ,25-Dihydroxyvitamin D3 and dexamethasone are tolerogenic and induce IL-10 producing regulatory T cells
19	Clinical Pharmacology	Samaranayake Nithushi	Using abbreviations in prescriptions – The perspectives of doctors, pharmacists and nurses
73	Neurology	Lu Song	The effect of <i>ex vivo</i> rotenone intoxication on dopamine re-uptake of <i>LRRK2</i> -R1441G mutant mouse
25	Respiratory Medicine	Li Xiang	Effects of induced pluripotent stem cell- and bone marrow-derived mesenchymal stem cells on cigarette smoke-induced lung damage in rats
46	Clinical Pharmacology	Samaranayake Nithushi	A pilot programme of 2-D Bar-coded Medication Administration System – Direct observation of changes to the pharmacy process
47	Endocrinology	Chen Yingxian	Exchange Protein directly Activated by cAMP 1 is Involved in beta3-adrenergic Induction of Brown Adipose Tissue in White Adipose Tissue
48	Cardiology	Hui Che	Effects of Functional Transient Receptor Potential Channels on Proliferation and Migration in Human Cardiac C-Kit+ Cells
59	Endocrinology	Lee Chi Ho, Paul	Elevated circulating adipocyte-fatty acid binding protein levels predict incident cardiovascular events in a community-based cohort: a 12-year prospective study
78	Endocrinology	Ye Dewei	Serum FGF21 is a Sensitive Prognostic Biomarker of Acute Liver Injury in Mice and Men
92	Endocrinology	Liang Qingning	Fibroblast growth factor 21 maintains glucose homeostasis during fasting by mediating the crosstalk between liver and brain
<b>Poster Session II: Clinical Research Poster Session 13:05 – 13:55 Chairmen: Dr Ivan Hung &amp; Dr KH Yiu</b>			
01	Rheumatology	Gao Yang	Assessment of Autonomic Function in Patients with History of Neuropsychiatric Lupus
09	Dermatology	Shek Yee Nam, Samantha	Fractional 1435nm diode laser system for skin rejuvenation in Chinese patients.
28	Geriatrics	Chan Tuen Ching	Prognostic factors for frail Chinese older adults: Is cognitive function an important predictor?
51	Haematology	Gill Harinder	Relapsed acute promyelocytic leukemia with central nervous system involvement: A 12-year prospective follow-up study on 169 patients treated with oral arsenic trioxide
60	Neurology	Lee Jacky	Central nervous system inflammatory demyelinating disorders in Hong Kong Chinese
67	Medical Oncology	Tang Yuen Fong	A New Prognostic Staging System with Treatment Guidelines for Patients with Hepatocellular Carcinoma: Hong Kong Liver Cancer (HKLC) Prognostic Classification Scheme
74	Endocrinology	Yuen Mae Ann, Michele	Skin Autofluorescence Correlates with Microvascular Complications in Type 2 Diabetes
82	Neurology	Lau Gary	Roles of the CHADS2 and CHA2DS2-VASc scores in Post-Myocardial Infarction Patients: Risk of New Occurrence of Atrial Fibrillation and Ischemic Stroke
83	Neurology	Yeung Maximus	Clinical features, Management and Prognostic factors of Status Epilepticus in Chinese
85	Neurology	Lau Gary	Prognostic Implications of Surrogate Markers of Atherosclerosis in Low to Intermediate Risk Patients with Type 2 Diabetes
