

Ab No	Specialty / Division	Presenting Author	Abstract Title
Poster Session I: Basic Science & Translational			
Poster Session 12:55 – 14:05			
Charimen: Dr David Lam & Dr Amy Lo			
14	Respiratory Medicine	Lam Sze Kwan	In-vitro and in-vivo study of arginase in treatment of malignant pleural mesothelioma
23	Rheumatology	Yim Lok Yan, Ada	Dendritic cells display abnormalities during onset of systemic lupus erythematosus
29	Nephrology	Yap Desmond	The effect of rapamycin in regulatory T cells in lupus nephritis
35	Endocrinology	Wu Xiaoping	The role of adipocyte fatty acid-binding protein in the pathogenesis of alcoholic liver fibrosis in mice
36	Endocrinology	Wang Baile	APPL2 in ventromedial hypothalamus regulates adaptive thermogenesis by promoting browning of subcutaneous white adipose tissue
67	Haematology	Chau David	Azacytidine sensitizes acute myeloid leukaemia cells to arsenic trioxide by up-regulating the arsenic transporter aquaglyceroporin 9
50	Respiratory Medicine	Liu Kenneth	Age difference in responses to cigarette smoke-induced injury in a rat model
77	Rheumatology	Pang Yuen Ting	Inhibition of autophagy by CLEC16A through modulation of mTOR nutrient sensing pathway
79	Respiratory Medicine	Lee Mary	Low-frequency intermittent hypoxia reduces endothelium-dependent contraction in C57 mice with diet-induced obesity
92	Haematology	Leong Ka Wai	PIN1 expression level is controlled by a negative feedback loop through the regulation of c-Myc and miRNAs
96	Cardiology	Lau Yee Man	Effect of epigenetic memory on differentiation and function of cardiac-induced pluripotent stem cells
103	Neurology	Feng Ye	Neuroprotection of melatonin and/or calpeptin in a rat experimental cerebral ischemia and reperfusion model
Poster Session II: Clinical Research			
Poster Session 12:55 – 14:05			
Charimen: Dr Tommy Cheung & Dr Thomas Yau			
11	Endocrinology	Lee Chi Ho	Serum high-sensitivity C-reactive protein levels are predictive of both the development and progression of nephropathy in Chinese patients with type 2 diabetes mellitus
18	Geriatrics	Kwan Shiu Kwong, Joseph	Prevalence and clinical impact of white matter hyperintensities, cerebral microbleeds, and medial temporal lobe atrophy on short- and long-term outcomes after stroke rehabilitation
21	Neurology	Wong Kin Yiu	Association of benzodiazepine use in Chinese patients and risk of dementia – a retrospective cohort study
27	Nephrology	Yap Desmond	Risk factor for renal relapse of lupus nephritis in the era of effective immunosuppressive treatments
49	Cardiology	Hai JoJo	Predictors for stroke in heart failure patients without atrial fibrillation
52	Cardiology	Chan Pak Hei, Michael	Gastrointestinal hemorrhage in atrial fibrillation patients: impact of quality of anticoagulation control
57	Cardiology	Chan Pak Hei, Michael	Time in therapeutic range and percentage of INRs in therapeutic range as measure of quality of anticoagulation control in atrial fibrillation patients
62	Clinical Pharmacology	Cheung Ching Lung	Evaluation of cutpoints for low lean mass and slow gait speed in predicting death in the National Health and Nutrition Examination Survey 1999-2004
71	Rheumatology	Li Hei, Philip	The effects of age and back pain duration on the clinical and radiological changes in patients with spondyloarthritis: results from a Chinese cohort
87	Clinical Pharmacology	Cheung Ching Lung	Relationship between serum beta-2-microglobulin and cardiovascular risk factors
88	Clinical Pharmacology	Cheung Bernard	Blood level of fibroblast growth factor 21 and blood pressure
90	Clinical Pharmacology	Cheung Adrian Justin	Association of increased systolic blood pressure in children with obesity and the metabolic syndrome
